Additional Objects Policy

The following rules and regulations apply to all organisations and groups who are intending to push, drag or pull any large objects (Object) in the City-Bay Fun Run to be held on Sunday 19th September 2027.

Please Ensure that all participants are aware of the Content Responsibility of the group:

1. To ensure that the Object is safe for other participants in the event.
2. To ensure that it is roadworthy or safe for anyone being carried by the Object.
3. To ensure that there are enough people to push or pull the Object for the entire route so that it does not put any strain on any one person.
4. To ensure there is sufficient people to render the Object safe on hills or at corners along the route.
5. All people involved either on the Object or with the Object MUST be registered in the event at the normal entry fee.
6. The Object involved must be under the total responsibility of the group involved at all times.
7. Any injuries or problems associated with this Object will not be covered by the City-Bay Fun Run Committee Inc.
8. There shall be NO collection of funds before the start, along the route or at the completion of the event. This will not be fair to other charities involved.

Starting on the day:

1. The Object must be assembled at the corner of Victoria Drive and King William Road prior to the start of the event.
2. The Object must not start until all other participants have commenced their event.
3. If the Object and its crew do get to a stage where it is necessary to pass some slower walkers, the crew must carry a whistle and have this person in front of the Object clearing the pathway for it to proceed safely.

Finishing on the day:

1. Due to the narrow space at the finish line, the Object must veer off Jetty Road into Durham Street. This will take you to Augusta Street. You will need to have a few people to manage items in this street.
2. Do not under any circumstances take it beyond this point – marshals will help you through the crowds and barricades.
3. Your team of runners can continue to the finish line to record their finish.
