

Additional Objects Policy

The following rules and regulations apply to all organisations and groups who are intending to push, drag or pull any large objects (vehicle) in the Lumary City-Bay Fun Run to be held on Sunday 21st September 2025.

Please Ensure that all participants are aware of the Content Responsibility

of the group:

1. To ensure that the vehicle is safe for other participants in the event.
2. To ensure that it is roadworthy or safe for anyone being carried by the vehicle.
3. To ensure that there are enough people to push or pull the vehicle for the entire route so that it does not put any strain on any one person.
4. To ensure there is sufficient people to render the vehicle safe on hills or at corners along the route.
5. All people involved either on the vehicle or with the vehicle **MUST** be registered in the event at the normal entry fee.
6. The vehicle involved must be under the total responsibility of the group involved at all times.
7. Any injuries or problems associated with this vehicle will **not** be covered by the City-Bay Fun Run Committee Inc.
8. There shall be **NO** collection of funds before the start, along the route or at the completion of the event. This will not be fair to other charities involved.

Starting on the day:

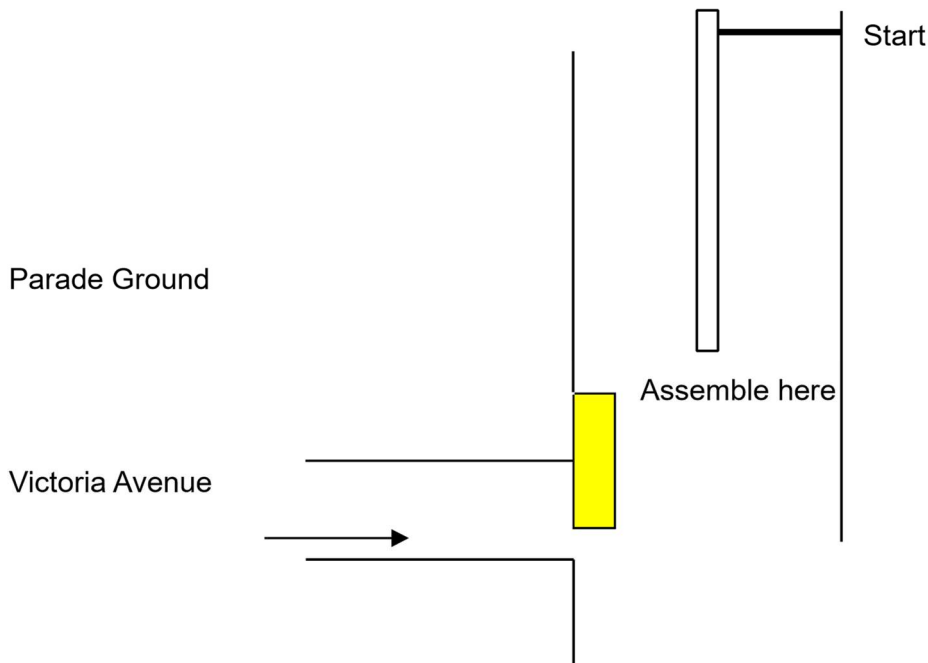

1. The vehicle must be assembled at the corner of Victoria Drive and King William Road prior to the start of the event.
2. The vehicle must not start until all other participants have commenced their event.
3. If the vehicle and its crew do get to a stage where it is necessary to pass some slower walkers, the crew must carry a whistle and have this person in front of the vehicle clearing the pathway for it to proceed safely.

Finishing on the day:

1. Due to the narrow space at the finish line, the vehicle must veer off Jetty Road into Durham Street. This will take you to Augusta Street. You will need to have a few people to manage items in this street.
2. Do not under any circumstances take it beyond this point – marshals will help you through the crowds and barricades.
3. Your team of runners can continue to the finish line to record their finish.
